Authorization for this examiner's amendment was given in a telephone interview with J. Randall Beckers (Reg. No. 30,358) on April 13, 2005.

The application has been amended as follows:

Art Unit: 2191

In the Claims:

11. (currently amended) A method for compiling a program containing a function, comprising:

substituting a procedure call for the function;

generating the program including the procedure call;

generating expansion code defining a procedure to be called by the procedure call; and

generating a subprogram containing the expansion code outside of the program

expanding the procedure call.

- END -

REASONS FOR ALLOWANCE

9. The following is an examiner's statement of reasons for allowance:

The cited prior art taken alone or in combination fail to teach, in combination with the other claimed limitations, a generator generating an expansion code describing a definition of a procedure to be called by the procedure call; and an outputting unit outputting the second program and the expansion code generated by said generator, and wherein the procedure call in the second program is expanded outside the second program and to be outputted as the expansion code as substantially recited in independent claims 1, 5, 7, 8-11.

The closest cited prior art, Detlefs (U.S. 6,161,217) teaches a method that expands code via method-guarded inlining. However, Detlefs (U.S. 6,161,217) fails to teach out-of-line code

Art Unit: 2191

expansion; that is, fails to teach a generator generating an expansion code describing a definition of a procedure to be called by the procedure call; and an outputting unit outputting the second program and the expansion code generated by said generator, and wherein the procedure call in the second program is expanded outside the second program and to be outputted as the expansion code as substantially recited in independent claims 1, 5, 7, 8-11; and as pointed out by the applicant's remarks/arguments on pg. 6, par. 4 to pg. 7, par. 6.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
